## Notes:

- 1. Wire gauge callouts are the gauge I use to reproduce new harness. In most cases the wire is a smaller metric size.
- 2. Diagram created from original 40 plus year old Nissan/Datsun Harnesses, schematics and use of ohmmeter. Later harnesses from Nissan may have color changes to wires. Consult schematics on 311s.org for notes on this.
- 3. Drawing is a graphical representation and not to scale.
